

Jabbar's family testimony

The beginning of our story with Saba Jabbar's family or Jabbar sisters, who told us about her suffering when she and her sisters were cut off from school and she was obliged to travel suddenly to Jordan, she talked about her experience with too much sadness, she said:" I went to Jordan at the beginning of 2019, and due to my family circumstances, I could not attend any school there.

I was looking at the children around my family and our neighbors, how they go to school every day while I was sitting at home looking at my dream of studying is just about to disappear and very difficult to achieve, and I repeated the question to myself several times: if I be able to go to school again?"

As her teacher I spoke on the phone with her mother, and she told me how she was very worried about the future of her three daughters (Saba the oldest daughter , Haya grade 4 and Tasneem and Tasneem grade 2), who are now without studies.

This is Haya (Saba's Sister a pure lovely girl When I asked her about her feeling to rejoin the school again I felt that she is confused about what she will answer me but suddenly I found a spontaneous student explain her joy with enthusiasm and a lot of motivation she said " in the beginning when I attend the classroom it was very strange to me I forgot even how to write my name in the correct way but I was surrounded by amazing teachers and school I feel that I'm dealing with my own family and from the first weeks,

I learned many things and every time I'm doing my homework correctly and receive the feedback's teacher I feel proud of myself I adore my school".

The mother told me when her husband informed her that they will come back to Qatar and maybe they will get the chance to join one of the famous Al Salim school she felt very happy and excited.

الرؤية : تعمل مدرسة " السلم الخامسة" على ترسيخ مجتمع تعليمي داعم وشامل يتعامل مع مجموعة من الخلفيات و الأنماط التعليمية من أجل تمكين جميع الطلاب من اكتساب وتثبيت المعرفة والمهارات المطلوبة لمواجهة التحديات الحالية والمستقبلية.

الرسالة : رسالتنا مدرسة "السلم الخامسة" تتمثل في تعليم الطلاب للوصول إلى أعلى مستويات التحصيل الأكاديمي وإعدادهم إعدادا جيدا لإكسابهم المهارات السلوكية و الإجتماعية والمدرسية والتكنولوجية لتأهيلهم ليصبحوا إيجابيين ومنتجين ومسؤولين في مجتمعهم وتمتعون بالتفكير المبدع.

Saba talked with full of motivation and hope she said:" when we returned to Qatar in last September 2021, we contacted Al-Salam School immediately because we heard a lot of positive feedback from our relative , how this school prepares students who have dropped out of school and joins them to the school benches. I was very happy and scared in the same time “.

Saba also talked about how she was very afraid and unsure of herself. Is she ready to go through the study experience after a two-year of cut off? How it will it be? How will i improve my academic level? Lots and lots of questions

But her dream began to come true, she and her sisters they were able to join the school without any complications from the beginning of the first week she got a lots understanding and greeting from the administration and the academic staff the encouragement and a lots of reinforcement and attention from everyone.

She regained her self-confidence, and she is now eagerly waiting for the lessons and communicating with the teachers directly if she has any questions and inquiry everyone is listening to her. She continued with happiness, “I felt that I’m a special student Everyone is interested to me, and everyone encourages me I love my new school, as if nothing happened, I am now in my best condition and I can see that my dream to be a teacher will come true.”
